

Tmdb Movies

Let's see my project

WHAT IS THIS
PROJECT?

This project is about

That there is top 5000
movies and my goal is to
make insights about the
data of this account

Tools I have used

1: Visual studio code

2: Python language

3: jupyter notebook

4: pandas library

2: Numpy library

3: Matplotlib library

Analysis steps

1

Gathering Data

3

Cleaning Data

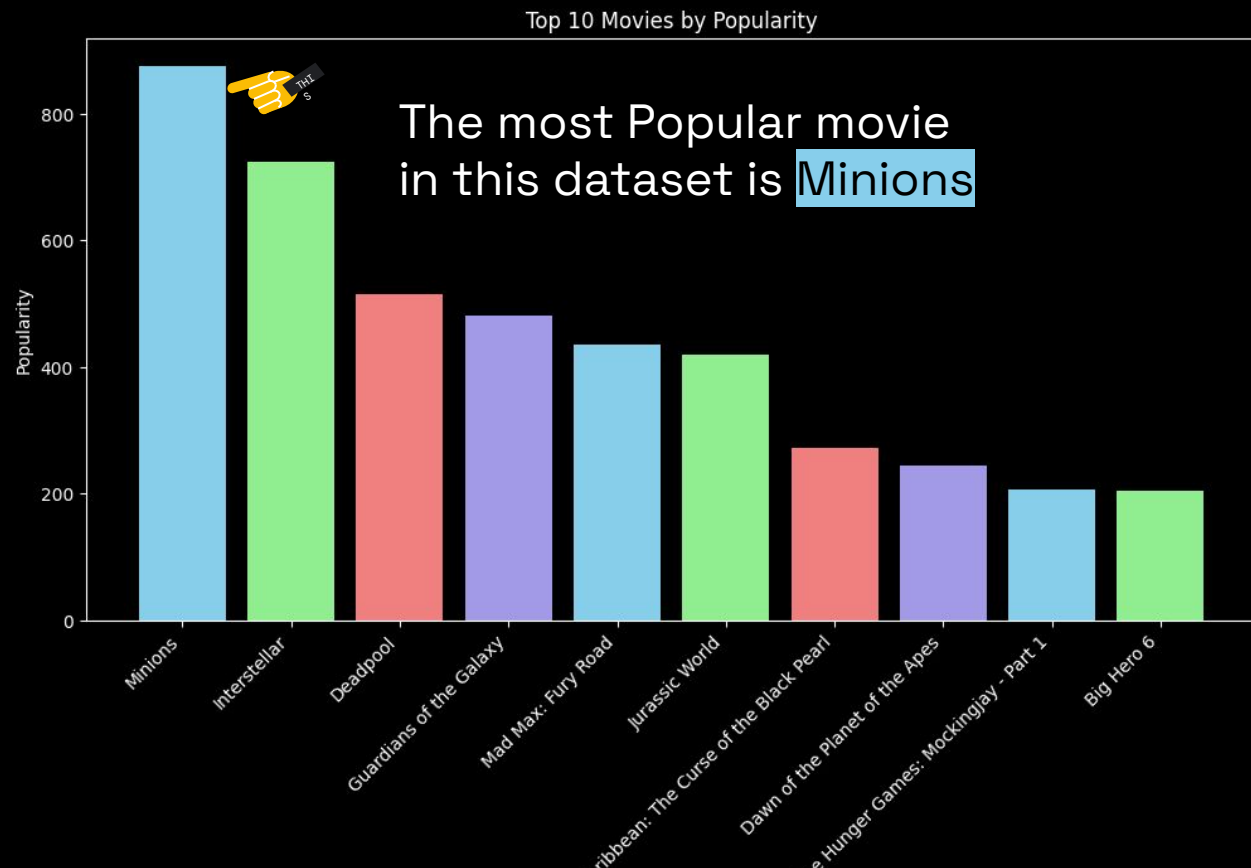

2

Investigating Data

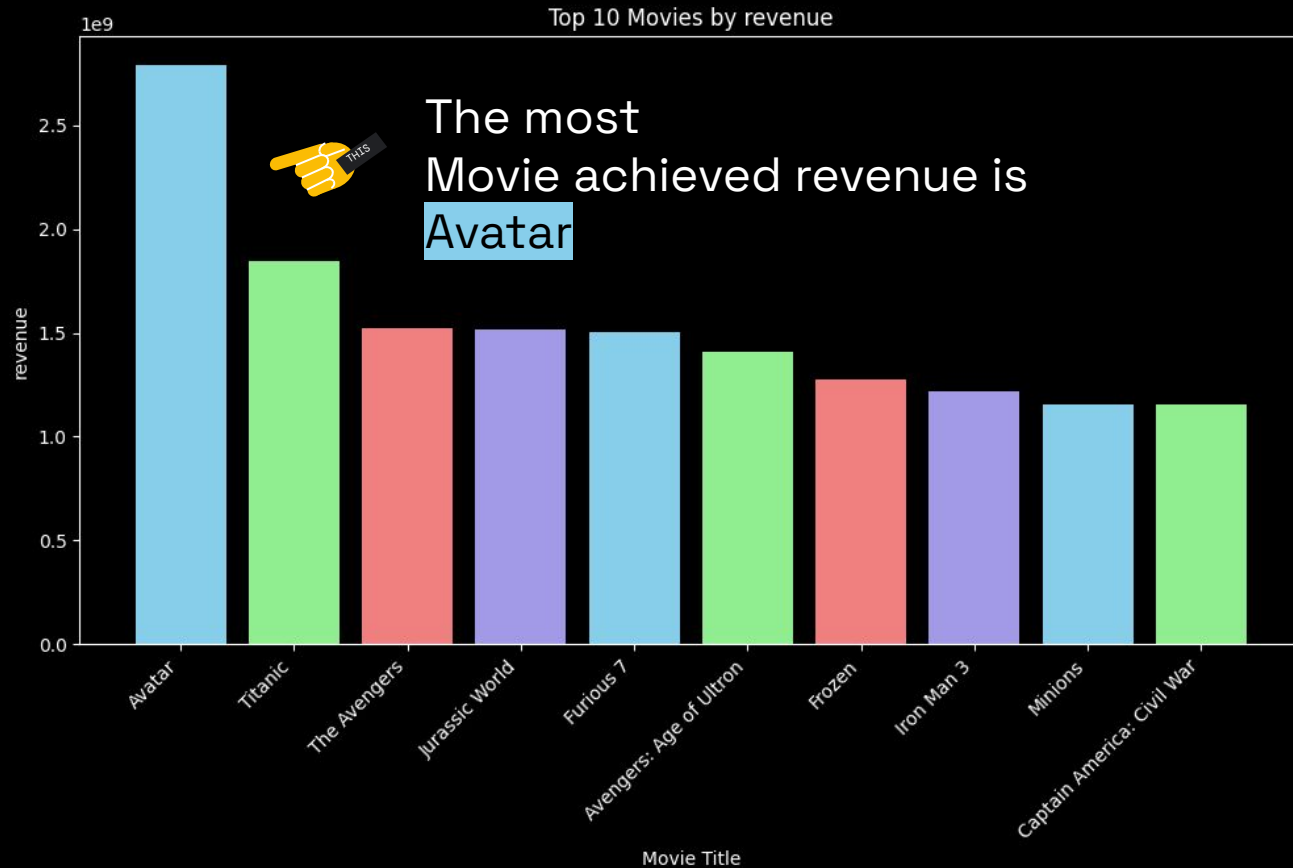

4

Visualizing Data

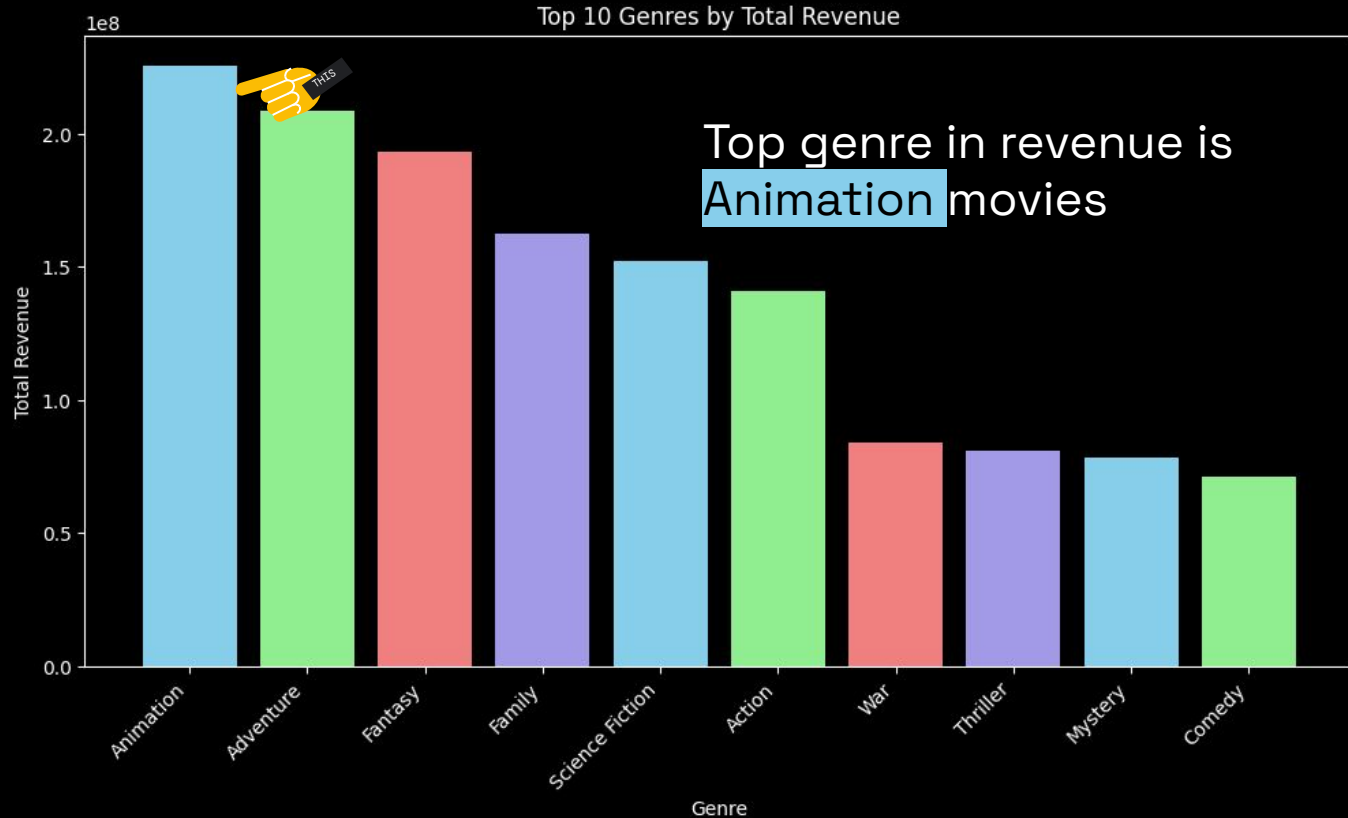

First insight:

Second insight:

Third insight:

conclusion:

1 English movies are top movies

2 Animation movies are top movies

So I suggest if you want to make a movie make it
an animation movie in English

Thanks for your time
